

## **Hazardous Goods – An Awareness Course**

Many exporting companies are involved in movements of Dangerous/Hazardous Goods. The legislation governing these movements change regularly and there are changes to both ADR (road) and IATA (air) on 1<sup>st</sup> January 2009. The Chamber Hazardous Goods Course does not provide the IATA or ADR qualification. It is designed to give delegates an awareness of the issues surrounding the movements of Dangerous Goods and to act as a useful starting point for any new or inexperienced member of staff.

### **WHO SHOULD ATTEND?**

This course is designed for delegates with between 1 months and 2 years experience. However, some delegates may find it very useful if they are very new and have not been involved in the movement of Dangerous Goods before. Ideally suited for sales, shipping, and customer service or despatch personnel who have just started their export career.

### **WHAT WILL YOU LEARN?**

This half-day course outlines the three key transport modes and the rules associated with them. It will focus on the following aspects: terminology, documentation, labelling, segregation and packing. Each delegate will receive a valuable “information pack” with document examples and course notes.

### **COURSE CONTENT**

- Introduction to the Subject/UN Recommendations
