

Quote by Jimmy Chestnutt, Director General of the Southampton & Fareham Chamber of Commerce & Industry:-

“Southampton airport is one of the Chambers oldest members and the Chamber is proud to be associated with the Airports celebration of its first 100 years.

The airport has played a pivotal role in the development of air travel, and for the last 50 years has been a major driver of the Regional economy.

Located close to many of the South’s largest cities it has excellent road and rail links and the airport has worked hard to build a network of important links with major European cities and business centres enabling local businesses to grow and develop their markets.

It is, as its long list of awards prove, also very passenger friendly and the combination of location and service has made Southampton airport the South’s airport of choice allowing travellers to get to other UK cities and the rest of Europe quickly and comfortably without having to run the gauntlet of London traffic.”
