SOUTHAMPTON, UK, May 05, 2009

**SOUTHAMPTON & FAREHAM CHAMBER OF COMMERCE LAUNCH ADDITIONAL EXPORT DOCUMENTATION SERVICE PROVIDING IMPROVED SERVICE TO REGIONAL EXPORTERS.**

Southampton & Fareham Chamber of Commerce a provider of export document certification services to exporters and traders, and Tradecert.com, an online service provider for document processing, today announced the successful launch of Tradecert's Certificate of Origin service to Southampton & Fareham Chamber of Commerce members and customers. This launch extends the number of online services offered to Southampton & Fareham Chamber customers and underlines the Chamber's leading role in encouraging the uptake of electronic commerce in the region.

Tradecert.com delivers a complete documentation service to exporters that includes online application, certification, and issuance services for all variants of Certificates of Origin (c/o) documents used in international trade. Tradecert.com is a leading online document certification service. Working through a global partner network of Chambers, Freight Forwarders, Consular Agents and other trade agents, the company provides documentation and certification services to exporters around the world.

"This launch allows Southampton & Fareham Chamber of Commerce to greatly expand its service to exporters and their agents," said Jacqueline Russell, International Trade Manager at Southampton & Fareham Chamber of Commerce. "The process is simple and easy to use and takes a fraction of the time of the traditional method. The certificate is stamped officially and received at the exporter's premises ready for printing, avoiding any need to send physical documents to the chamber. The new system expedites the export administrative process and reduces time and costs for customers."

"Tradecert.com is delighted to add Southampton & Fareham Chamber to the growing list of UK Chambers using our service" said Eoin Leahy, CEO of Tradecert.com. "It is especially important for Tradecert to be linked with a regional Chamber at the heart of UK and international trade. In the present times all companies understand the value of innovation to deliver better and more efficient service to their customers, and I am hugely satisfied that Southampton & Fareham Chamber have chosen Tradecert.com to help make that difference to their regional clients."

About Tradecert.com.

Based in Galway, Ireland, and with offices in New York, US, Tradecert.com provides an online export documentation and certification service delivering compliant trade documents to exporters internationally. The service is currently available in the UK, Ireland, and Canada and is being rolled-out to other markets. The company's initial focus is on the electronic delivery of Certificates of Origin (COO). These documents are prepared for many exports and are authenticated by regionalised Chambers of Commerce. Other document types – e.g. invoices – can also be submitted as attachments and authenticated using the service. For additional information please visit [www.tradecert.com](http://www.tradecert.com)
